Think 'VHF 65'

Listen on VHF channel 65 to hear Prawle Point National Coastwatch daily local weather information broadcasts at approximately 09:45, 11:45, 13:45, 15:45 (and 17:45 in the summer).

They cover current wind strength and direction, sea state, swell and any poor visibility.

For additional weather information, radio and AIS checks call 'Prawle Point NCI' on channel 65 during our operating hours (09:00 to the earlier of sunset or 17:00 during the winter or 20:00 during the summer).

You can also phone the lookout on 01548 511259 or visit our website www.nci-prawlepoint.org.uk where you can see our weather station and webcams.

VHF channel 65 is used by all National Coastwatch Institution stations.
